GLOSSARY

[View Full Glossary](#)

- **Accident**

CARFAX receives information on accidents in most states when an official police report is filed. Not all accidents are reported to the Police. The level of detail in the accident record varies by state depending on the state's accident report requirements. CARFAX recommends you obtain a vehicle inspection from your dealer or an independent mechanic for any car involved in an accident.

- According to the National Safety Council, Injury Facts, 2003 edition, 12% of the 243 million registered vehicles in the U.S. were involved in an accident in 2002. Over 90% of these were considered minor or moderate.
- CARFAX depends on public and private sources for its accident data. Each one of these sources has different processing times. CARFAX can only report what is in our database on 22.Aug.2006 23:14:32. New data will result in a change to this report.

New York Police Reports:

- Do not include an assessment of damage severity
- Are required if the estimated damage exceeds \$1000
- Are released to CARFAX approximately 3 months after the accident date. At times, New York may have a backlog that will affect how quickly some accident records are displayed on the Vehicle History Report.

- **First Owner**

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

- **Inspections**

Many states or counties require annual or biennial emissions and/or safety inspections. Odometer readings are collected at the time of the inspection.

- **Mileage Inconsistency**

If a more recent odometer reading is less than an older reading but CARFAX is uncertain whether the discrepancy is a rollback or a clerical error, then CARFAX calls it a "Mileage Inconsistency". In this case, you should verify the mileage with your dealer or a qualified mechanic.

- **New Owner Reported**

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

- **Ownership History**

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

- **Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Accident Indicator

Various events could indicate an accident in a vehicle's history, such as: salvage auction, fire damage, police-reported accident, crash test vehicle, damage disclosure, collision repair facility and automotive recycler records. See the glossary for more information.

Airbag Deployment

Occurs when the driver, passenger or side airbag has been used or deployed during a crash or other incident. If an airbag has been deployed, new or recycled airbags must be installed for the airbag system to return to operation.

Frame Damage

In most cases, a vehicle is inspected for frame damage after an accident or other incident. All levels of accidents from minor to severe can cause frame damage and in most cases it can be repaired. If frame damage is reported, having this vehicle's frame inspected before purchase is recommended.

Odometer Rollback

If a more recent odometer reading is less than an older reading, then the odometer may have been tampered with and "rolled back".

Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

Basic Warranty

Most manufacturers offer a basic warranty for new vehicles. These warranties vary by manufacturer and typically last for a certain amount of time and/or a set number of miles.

Salvage Title

A Salvage Title is issued on a vehicle damaged to the extent that the cost of repairing the vehicle for safe operation exceeds its fair market value; or a vehicle that has been declared a Total Loss by an insurer or other state or jurisdiction. Some states treat Junk titles the same as Salvage but the majority use this title to indicate that a vehicle is not road worthy and cannot be titled again in that state. The following ten States also use Salvage titles to identify stolen vehicles - AZ, FL, GA, IL, MN, NJ, NM, NY, OK and OR.

Junk Title

A Junk Title is issued on a vehicle damaged to the extent that the cost of repairing the vehicle for safe operation exceeds its fair market value; or a vehicle that has been declared a Total Loss by an insurer or other state or jurisdiction. Some states treat Junk titles the same as Salvage but the majority use this title to indicate that a vehicle is not road worthy and cannot be titled again in that state.

Rebuilt/Reconstructed Title

A Rebuilt/Reconstructed vehicle is a salvage vehicle that has been repaired and restored to operation. These vehicles are often severely damaged before they are rebuilt and refurbished parts are typically used during reconstruction. In most states, an inspection of the vehicle is required before the vehicle is allowed to return to the road.

Loss Due To Fire Title

The vehicle sustained major damage due to fire. In most states, fire damage titles are issued when the cost of repairing

the vehicle for safe operation exceeds its fair market value.

Flood Damage Title

States issue flood titles when a vehicle has been in a flood or has received extensive water damage.

Hail Damage Title

The vehicle sustained major damage due to hail. In most states, hail damage titles are issued when the cost of repairing the vehicle for safe operation exceeds its fair market value.

Manufacturer Buyback or Lemon

A vehicle, generally with major problems, that has been repurchased by or had its price renegotiated with the manufacturer. The specific requirements for vehicles that qualify as a "lemon" vary by state but most states mark an official document or issue a Manufacturer Buyback title for Lemon Law vehicles. In addition, most manufacturers will, as a courtesy, buy back some vehicles that do not meet Lemon Law specifications; these buybacks may or may not be recorded on the title.

Not Actual Mileage Title

When the seller certifies, under the Truth-in-Mileage Act, that the odometer reading does not reflect the vehicle's actual mileage. This may occur because the odometer was tampered with, broken, or replaced.

Exceeds Mechanical Limits

A vehicle with a 5-digit odometer cannot accurately track mileage after 99,999 miles because the odometer rolls over. This title is the result of a seller certifying under the Truth-in-Mileage Act, that the odometer reading EXCEEDS MECHANICAL LIMITS of the odometer.

Standard Equipment

Power Windows, Power Steering, Air Conditioning, AM / FM CD, Tilt Wheel, 6-digit Odometer

Safety Options

4 wheel ABS, Driver front air bag/passenger side belt unknown
